

# The Lion Residence W505

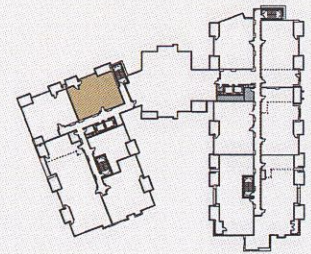

Located higher in the building on the 5th floor, this elevated residence has a light, bright interior with great views to the northern mountains. The Master adjoins a luxurious bath and walk in closet, while the second bedroom can easily accommodate two queen beds, or bunk beds if preferred. As with all of the Lion's two bedroom residences, there is a shower in the powder room, which is perfect for additional guests or if everyone is getting ready to go out at the same time.
