Utility Changeover Information - Arrowhead

Because of the personal nature of the information required by the utility companies, we at Slifer, Smith & Frampton Real Estate, LLC cannot transfer utilities for our clients. Buyers and Sellers should handle all utility changeovers prior to closing as serious property damage may result if heat or electric service is interrupted for any length of time. Buyers, please be aware that you will need insurance coverage for your property. If you have purchased a condominium, the Association will have a master policy, but you will need a rider for personal property and liability.
